### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Ms. Anca C. Gheorghiu, on 13-JUL-2004.

The application has been amended as follows:

In claim 14, line 1, "14" has been substituted by -- 8 --.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or render obvious the instantly claimed process of extruding a honeycomb article using two co-rotating twin screw extruders, wherein the first extruder is used to mix and screen ceramic material and the second extruder is used to produce the honeycomb structure.

It is noted that the prior art of record teaches a honeycomb extrusion process using two extruders as well as an equivalent process using a single twin screw extruder(see Andou et al.). As such, motivation to use two twin screw extruders is not suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
